

SPRAYMAXX

Read and fully understand the instructions before operating the 8L multi-purpose Sprayer

portek.co.uk

SprayMaxx 8L Multi-Purpose Sprayer Operators Handbook

2 Before You Start

1. Adjustable spray nozzle
2. Pump handle
3. Trigger
4. Connector
5. Reservoir
6. Safety valve
7. Carry strap

The SprayMaxx 8L Sprayer is designed to spray water, fertilizers, herbicides, fungicides, pesticides and other garden products and domestic cleaners. It is **not** designed for use in public areas, parks, athletic venues or in other large-scale operations. Compliance with the instruction manual is required for the safe and correct use of the product.

WARNINGS: Due to the risk of personal injury that could potentially arise, the SprayMaxx 8L Sprayer must only be used with the products specified above. **Do not** use it to spray acids, disinfectants, waterproofing products, abrasive or solvent-based cleaners, oil or gasoline. It is imperative to follow all precautionary measures specified by Portek Limited when spraying insecticides, herbicides, fungicides or other liquid plant sprays.

SAFETY INSTRUCTIONS: **Never** open the SprayMaxx 8L Sprayer or unscrew nozzle when the reservoir is still pressurized. **Never** connect the sprayer to a product with compressed air. **Always** release air pressure completely by pulling out safety valve before opening. The SprayMaxx 8L Sprayer must always be in an up-right position when opening the safety valve.

ESSENTIAL EQUIPMENT FOR YOUR PROTECTION

The EZY Spray complies with the safety standards as stated in the Declaration of Conformity. For your safety You must wear full protection as specified below.

Face and eye protection

Eye protection to EN166 - B

Face protection recommended.

Suitable clothing protection

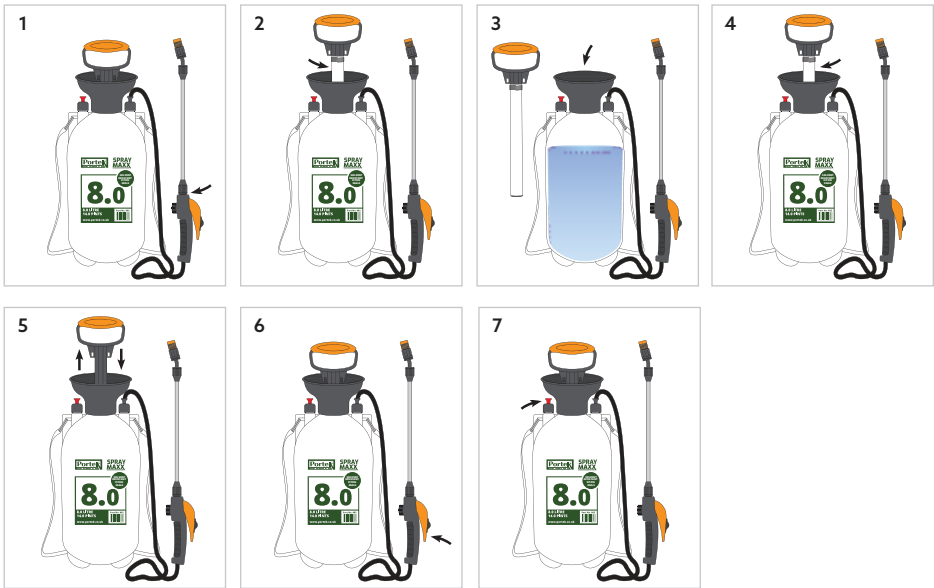

Gloves to EN 12477:2001

ALWAYS WEAR SAFETY CLOTHING IN CONJUNCTION WITH HAND, EYE, HEARING AND FOOT PROTECTION TO HSE/EN SPECIFICATIONS

USE: Firmly screw the handle by hand, ensuring that the o-ring is well-positioned. Inspect the SprayMaxx 8L Sprayer prior to each use. Do not leave unattended for prolonged periods when the container is filled and pressurized. Keep the sprayer away from children at all times. Do not expose to prolonged heat or sunlight.

CLEANING: After each use, make sure to release the pressure, empty and clean the reservoir, clean the filter, and rinse with fresh water. Leave the SprayMaxx 8L Sprayer open to dry. Do not dump remaining fluid into home drainage systems. The SprayMaxx 8L Sprayer should always be cleaned before using a different product in order to avoid unwanted chemical reactions. Make sure to not mix up containers and caps if using several sprayers simultaneously.

STORAGE: Always empty the SprayMaxx 8L Sprayer completely (even after rinsing with water) before storage. Store away from frost and ice. Never store with trigger lock in position.

INSTRUCTIONS FOR USE

1. Attach the spray lance by screwing it on in a clockwise direction.
2. Unscrew the pump handle in an counter-clockwise direction.
3. Fill with liquid to the desired level, as shown on reservoir bottle.
4. Insert the pump handle back in to the reservoir bottle, screw in a clockwise direction.
5. Activate the pump handle to build pressure in the reservoir bottle.
6. The sprayer will work when the trigger on the spray lance handle is depressed.
7. The safety valve will leak if the air pressure is too high. Lift the safety valve to let out air. Do not overfill with air or liquid.
8. Before storing, make sure the tank is clean and non-pressurised.
